

Atlantic Street Park - Cultural and Performing Arts Center City of Hackensack

The Atlantic Street Park project was completed in July 2015 as part of continued downtown revitalization efforts in the City of Hackensack. The project features an outdoor stage which provides a performance areas for spring and summer concerts and movie nights while providing seating and shaded areas for weekend and lunch use. The parking provides an intimate garden and outdoor chess tables for residents.

The project which surrounds the existing Cultural Arts Center and future Performing Arts Center will be a focal point of the downtown revitalization efforts. The project included a \$268,000 Open Space Grant from Bergen County and a \$40,000 contribution from the Upper Main Street Alliance.

The City has plans to complete the renovations of the second floor and turn Cultural Arts Center into a Performing Arts Center with a 200 seat theater.

These projects benefit the surrounding commercial and office space, and support the proposed residential development at 94 State Street and assist in the redevelopment initiatives that continue throughout the downtown. These efforts have seen tremendous success since they began in 2012 with the adoption of the Downtown Rehabilitation Plan for the Main Street Area.
